Dear Class of 2014,

First off, on behalf of the class officers and myself, I would just like to say thank you for giving us the opportunity to serve you during these past four years. It has truly been an honor and an experience in which none of us will ever forget. Although we are currently the smallest class in Fairhaven High, we are definitely the biggest class when it comes to heart. As Muhammad Ali once said, "Friendship...is not something you learn in school. But if you haven't learned the meaning of friendship, you really haven't learned anything." We all must have that one memory with a friend or a group of friends which will always stay with us. Whether it be in sports, clubs, music, or in a classroom, those memories define us.

No matter where we are in the world, FHS will always be the place to which we can trace back those unique memories. No matter if you plan on furthering your education or joining the armed services, FHS will be that school that made you ready to take on the ever changing world. John F. Kennedy, once said, "Ask not what your country can do for you, ask what you can do for your country." I have faith in our class, and in our generation, that we will do great things for our society. We will forever be one for the memories.

## Jordan Costa, Editor-In-Chief

Dear Class of 2014,

Congratulations! I'd like to wish you all luck and success in whatever you choose to do in life. Most importantly, have fun with whatever you choose to do!

I want to thank Mr. Beaulieu, Mrs. Duarte, and the yearbook staff for all of their hard work and dedication on this book. I could not have asked for better advisers! They make the sometimes stressful job of putting together a yearbook a really fun time. We all have worked so hard on the book this year and I'm so happy with how it turned out. Lastly, I want to thank them for making me editor-in-chief of the yearbook. It's been an overall fun experience!

# Dedication

## Lorraine Fernandes, Art

---

"A true artist is not one who is inspired, but one who inspires others." Salvador Dali

"No one is in control of your happiness but you; therefore, you have the power to change anything about yourself or your life that you want to change." Barbara De Angelis"

Having taught every age level from Fairhaven summer recreation to Adult evening classes, I have found that my enjoyment of teaching is the simple rewards of seeing eyes light up or a smile on their faces when I hold up their artwork for them to see and knowing that they are smiling because of a sense of accomplishment. I am also very thankful that I have taught with and around so many wonderful people in the Fairhaven school system and have made many friendship along the way.

## Desiree Vincent, A P for Student Services

---

"The only place success comes before work is in the dictionary."

Vince Lombardi

Working in the field of education has been a rewarding experience both personally and professionally. I have appreciated the opportunity to work with many exceptional administrators, colleagues, parents, community members, and students in my tenure at Fairhaven Public Schools. I am proud of our accomplishments and realize that there are many more challenges that lie ahead. It has been a pleasure to serve Fairhaven Public Schools and the children it so proudly educates and advocates for.

## Thomas Williams, Chemistry & Anatomy

---

You will each remember me in your own way. Some will know me from the classroom and remember the course as easy or difficult. In either case, I hope that you learned a lot; not just about the material but also about yourself. I hope that we learned together and laughed a lot! Some will know me from the Hallways, either because I was telling you to hurry along to class or to put your phones away. The first few warnings I hope I delivered with a smile .....

Fellow teachers and staff, you will remember me at faculty or committee meetings or, even better, social gatherings. We did good work and had a lot of fun along the way!!

In Anatomy class we learn that growth is a characteristic of life. I hope that you grew because of our time together. I know that I did!

Back in college I remember disagreeing with my instructor about teaching. He said that you have to love your students to be an effective teacher. I replied that teachers only need to know their subject and how to teach it effectively. Very soon after joining the staff at FHS I realized that my instructor was correct. I could not help but love my students!

Along with this years seniors I begin a new chapter in my life. I don't know what the future holds. It is exciting and at the same time a little scary (two feelings always associated with growth)! The past twenty years have been great. I say to all students and colleagues..... "Here's to the Next Twenty"!!

# Exchange Students

Mayuko Tanaka

Home Country: Japan

Why did you choose to come to the U.S.? I want to be a diplomat in the future because recently Japanese diplomacy is very weak and we really need to fix some problems. Also, I had studied English for 3 years before I came here. I wanted to use my English, improve my English.

What is your favorite thing about the U.S.? I think Americans are able to do what they want to do more than in Japan. People can choose their own way, for example at school we can choose the classes from a variety of classes. I feel like the right thing is to choose what I want not what someone wants me to do.

What is your least favorite thing about the U.S.? In Japan, we always need to be on time, but here nobody cares that much about time. Also some people use their phone all the time, these two things surprised me.

What is your favorite American food? I love eating! I especially love cheese and there are so many different kinds of cheese at the grocery store. I think it's amazing. My host family made kale soup, chicken soup, and meat loaf for me.

What has been the hardest thing about attending school here in the U.S.? At first I had trouble doing so much homework. The time between classes is very short and it was tough for me. Also I am a quiet person. It doesn't mean I don't understand friends, or I can't speak English, but I did not like teenagers' high-tension. I could not deal with it. Now I'm perfectly fine and I don't have any trouble attending school here, I like it.

Are the classes at FHS harder, easier, or the same as the classes back home? I think classes here are easier than classes in Japan. The language difference makes it difficult, but it depends on what classes I choose.

Stine Trolleboe Home Country: Norway

Why did you choose to come to the U.S.? I chose to come to the United States because I had never been here before and I wanted to experience and learn about a totally new culture. Also so I could learn to speak English well.

What is your favorite thing about the U.S.? Peanut butter

What is your least favorite thing about the U.S.? The unnecessary choices of everything.

What is your favorite American food? Tacos

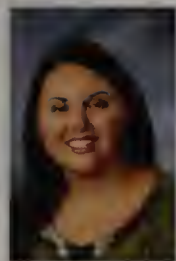

What has been the hardest thing about attending school here in the U.S.? To have classes in a foreign language and that I didn't know anyone in the school. And the homework...

Are the classes at FHS harder, easier, or the same as the classes back home?

The classes are a lot easier here, but there is more homework here than what I'm used to.
